

DR. SHERRI TENPENNY

| Doctor, Speaker, Educator, Consultant

Dear friends,

The questions on everyone's minds these days are "How dangerous are the Covid shots?" and "What are the risks of getting one of these shots?" We have received hundreds of requests for this information. It is now packaged and ready to be released.

Over the last several months, Dr. Sherri Tenpenny has spent more than 2,000 hours researching and documenting the **20 Mechanisms of Injury (MOI)** that can result from a COVID-19 injection. To fully comprehend the magnitude and the details behind each of these twenty MOI, Dr. Tenpenny is hosting a 2-hour training webinar to learn about each of these during the live event.

Celebrity influencers, monetary incentives, employer threats, travel restrictions and flat out lies by media and politicians are conspiring to convince you that these shots are harmless and necessary. Sadly, we may soon be seeing the largest amount of chronic illness and deaths - caused by an injection - ever encountered in history.

We have been heavily censored because we are exposing the truth. This information is explosive and those in Power do not want you to know it. Please share this invitation with your friends, social media groups, email lists, etc. so that every person has the opportunity to learn these critical details.

20 MECHANISMS OF INJURY: TRAINING

With Dr. Sherri Tenpenny

When: Saturday May 8, 2021
