Subject: Current State of La Palma Island

I will begin by saying that just like anyone can see in the news or on the internet there is lots of activity in and around the island. The purpose of this report is to give you a view of the story behind the story or what is the media NOT telling you which could be very important to you. So let's dive in and see what lurks on, in, under and around La Palma Island which could drastically change your life in just a few hours. One thing that I must say before I begin is that there is zero porn fear here this is just raw data unfiltered by government gags or news media wanting NOT to focus on what could happen but most media outlets focus on events which just happened, and if the event hit your home town it is rather late to do anything about the situation. All the basic details of the beautiful display of the volcano or fancy maps of what is supposed to be happening, you can check out all the live webcams and speakers on youtube or other media outlets, but none of them will focus on the **MOST IMPORTANT SET OF DETAILS OF THE SITUATION** which is **WHY SHOULD EUROPE AND NORTH AMERICA CARE ABOUT WHAT HAPPENS ON A SMALL ISLAND IN THE ATLANTIC OCEAN FAR AWAY FROM YOUR HOME ?????**

Because this is a serious situation with plenty of details I will begin with the "expected event" that every geologist following the actions on La Palma Island are concerned about.

There are three (3) potential variations of a tsunami event which can occur, and these will be described below. It is important to remember that this is a very complex geological situation and no one can tell precisely which event will occur or when but given the conditions we can come up with computer models which can give pretty good estimates of what could happen, and there is common agreement privately between geologists that they honestly expect one of the 3 options described below to happen, or for a "sequence of events" to happen which would result in multiple tsunami waves to occur.

- 1 Option 1: In this option it would be the western face of the island (a slump or loose and weak area of the island relative to the rest of the island) falling into the ocean. This represents about 1/4 of the area of the island.

- 1.1 Estimated basic details:

- 1.1.1 THE ESTIMATED MASS WHICH IS EXPECTED TO FALL INTO THE OCEAN IS AT LEAST 7 TRILLION TONS ON THE LOW SIDE, BASED ON THE THERMAL IMAGES OF THE AREA OF THE WEAKEST POINTS ON THE ISLAND AS WELL AS SOUNDS COMING FROM THE MOVING ROCKS AND MAGMA FLOWING UNDER THE OCEAN AT THE BASE OF THE ISLAND.

- 1.1.2 THE ESTIMATED TSUNAMI CHARACTERISTICS ARE AS FOLLOWS:

- 1.1.2.1 ESTIMATED WAVE HEIGHT AT THE NORTH AMERICAN EAST COAST IS 1200 TO 1500 FEET TALL.

- 1.1.2.2 ESTIMATED SPEED WHEN IT HITS THE NORTH AMERICAN EAST COAST IS AROUND 700 TO 750 MILES PER HOUR.

- 1.1.2.3 THE ESTIMATED WIDTH OF THE WAVE AT THE TOP OF THE WAVE IS ABOUT THE LENGTH OF 1 FOOTBALL FIELD.

- 1.1.2.4 THE ESTIMATED WIDTH OF THE WAVE AT GROUND LEVEL IS ABOUT 10 FOOTBALL FIELDS IN LENGTH.

1.1.2.5 EXPECTED TRAVEL DISTANCE INLAND IS TOTALLY DEPENDENT ON THE TERRAIN AS WELL AS BUILDINGS ETC. HOWEVER IT IS EXPECTED TO BE AT LEAST 100 MILES INLAND BEFORE THE WAVE HEIGHT BEGINS TO DROP AND THE ENERGY BEGINS TO DISSIPATE AND DUMP SIGNIFICANT ENERGY.

1.2 CURRENT STATUS:

1.2.1 THE WESTERN SLUMP IS SLIPPING DAILY AND THE MASS WHICH IS SLIPPING IS ALSO GROWING DAILY.

1.2.2 THE WESTERN SLUMP IS ALSO BEING SHAKEN AS THE ISLAND ROCKS BACK AND FORTH BECAUSE THE HUGE CALDERA ON THE OCEAN FLOOR WHICH IS HIGHLY ACTIVE.

1.2.3 ALL THE GEOLOGISTS AGREE THAT THERE WILL BE NEW ISLAND(S) CREATED FROM VIOLENT ERUPTIONS ON THE OCEAN FLOOR.

1.2.4 IT IS SAID THAT THE SLIP AND TSUNAMI FORMATION CAN OCCUR AT ANY TIME NOW WITHOUT WARNING.

2 Option 2: In this option it would be the western half of the island falls into the ocean. This represents about 1/2 of the area of the island.

2.1 Estimated basic details:

2.1.1 THE ESTIMATED MASS WHICH IS EXPECTED TO FALL INTO THE OCEAN IS AT LEAST 15 TRILLION TONS ON THE LOW SIDE, BASED ON THE THERMAL IMAGES OF THE AREA OF THE WEAKEST POINTS ON THE ISLAND AS WELL AS SOUNDS COMING FROM THE MOVING ROCKS AND MAGMA FLOWING UNDER THE OCEAN AT THE BASE OF THE ISLAND.

2.1.2 THE ESTIMATED TSUNAMI CHARACTERISTICS ARE AS FOLLOWS:

2.1.2.1 ESTIMATED WAVE HEIGHT AT THE NORTH AMERICAN EAST COAST IS 1500 TO 1800 FEET TALL.

2.1.2.2 ESTIMATED SPEED WHEN IT HITS THE NORTH AMERICAN EAST COAST IS AROUND 850 TO 950 MILES PER HOUR.

2.1.2.3 THE ESTIMATED WIDTH OF THE WAVE AT THE TOP OF THE WAVE IS ABOUT THE LENGTH OF 3 FOOTBALL FIELDS.

2.1.2.4 THE ESTIMATED WIDTH OF THE WAVE AT GROUND LEVEL IS ABOUT 30 FOOTBALL FIELDS IN LENGTH.

2.1.2.5 EXPECTED TRAVEL DISTANCE INLAND IS TOTALLY DEPENDENT ON THE TERRAIN AS WELL AS BUILDINGS ETC. HOWEVER IT IS EXPECTED TO BE AT LEAST 200 MILES INLAND BEFORE THE WAVE HEIGHT BEGINS TO DROP AND THE ENERGY BEGINS TO DISSIPATE AND DUMP SIGNIFICANT ENERGY.

2.2 CURRENT STATUS:

2.2.1 THE CRACK IN THE MIDDLE OF THE ISLAND IS GETTING DEEPER BY THE DAY, AND IF THE CRACK EXTENDS ALL THE WAY TO THE OCEAN FLOOR IT IS EXPECTED THAT 1/2 OF THE ISLAND MASS WILL LAND ON THE OCEAN FLOOR AND MAKE A VERY ENLARGED TSUNAMI EVENT.

2.2.2 THE CRACK IS ALSO BEING WIDENED AS THE ISLAND ROCKS BACK AND FORTH BECAUSE OF THE HUGE CALDERA HIGH ACTIVITY ON THE OCEAN FLOOR.

2.2.3 ALL THE GEOLOGISTS AGREE THAT THERE WILL BE NEW ISLAND(S) CREATED FROM VIOLENT ERUPTIONS ON THE OCEAN FLOOR.

2.2.4 IT IS SAID THAT A TSUNAMI FORMATION CAN OCCUR AT ANY TIME NOW WITHOUT WARNING.

3 Option 3: In this option it would be the entire island and the “stem” which holds the island up from the floor of the ocean, all falling into the ocean. This represents the entire area of the island.

3.1 Estimated basic details:

3.1.1 THE ESTIMATED MASS WHICH IS EXPECTED TO FALL INTO THE OCEAN IS AT LEAST 50 TRILLION TONS ON THE LOW SIDE, BASED ON THE THERMAL IMAGES OF THE AREA OF THE WEAKEST POINTS ON THE ISLAND AS WELL AS SOUNDS COMING FROM THE MOVING ROCKS AND MAGMA FLOWING UNDER THE OCEAN AT THE BASE OF THE ISLAND.

3.1.2 THE ESTIMATED TSUNAMI CHARACTERISTICS ARE AS FOLLOWS:

3.1.2.1 ESTIMATED WAVE HEIGHT AT THE NORTH AMERICAN EAST COAST IS 2200 TO 2600 FEET TALL.

3.1.2.2 ESTIMATED SPEED WHEN IT HITS THE NORTH AMERICAN EAST COAST IS AROUND 950 TO 1100 MILES PER HOUR.

3.1.2.3 THE ESTIMATED WIDTH OF THE WAVE AT THE TOP OF THE WAVE IS ABOUT THE LENGTH OF 12 FOOTBALL FIELDS.

3.1.2.4 THE ESTIMATED WIDTH OF THE WAVE AT GROUND LEVEL IS ABOUT 90 FOOTBALL FIELDS IN LENGTH.

3.1.2.5 EXPECTED TRAVEL DISTANCE INLAND IS TOTALLY DEPENDENT ON THE TERRAIN AS WELL AS BUILDINGS ETC. HOWEVER IT IS EXPECTED TO BE AT LEAST 400 MILES INLAND BEFORE THE WAVE HEIGHT BEGINS TO DROP AND THE ENERGY BEGINS TO DISSIPATE AND DUMP SIGNIFICANT ENERGY.

3.2 CURRENT STATUS:

3.2.1 THE STEM OF ROCK WHICH IS THE BASE OF THE ISLAND WHICH GOES TO THE HUGE CALDERA AT THE BOTTOM OF THE OCEAN IS ROCKING THE ISLAND BACK AND FORTH EAST AND WEST CAUSING THE PART OF THE STEM ANCHORED TO THE OCEAN FLOOR TO LOOSEN AND POTENTIALLY CAUSE THE ENTIRE ISLAND TO CRASH INTO THE OCEAN.

3.2.2 ALL THE GEOLOGISTS AGREE THAT THERE WILL BE NEW ISLAND(S) CREATED FROM VIOLENT ERUPTIONS ON THE OCEAN FLOOR.

3.2.3 IT IS SAID THAT THE STEM CAN BREAK AND RUPTURE AT ANYTIME WITHOUT WARNING AND A TSUNAMI FORMATION CAN OCCUR AT ANY TIME NOW WITHOUT WARNING AS WELL.

The precise reason that no one is seriously talking about what to do is as follows:

- 1** None of the governments want to “disrupt the people (and cause fear and panic)” because to be blunt just like the covid mess they want the “damage” to hit then grab more control over the hearts and minds of a group of people who are “in fear”. God tells us more than any other topic in the bible **DO NOT BE AFRAID FOR I AM WITH YOU ALWAYS.**
- 2** The people themselves would rather drink starbucks coffee and eat chips and doughnuts watching something on tv or social media, rather than planning how to prepare for the **RADICAL** changes in life which are being thrown at us daily as drastic changes by satan and his evil minions.
- 3** The next reason is that most people also refuse to humble themselves on their knees or faces before God the Father and his Son Jesus and beg forgiveness for their sins and then as forgiven children of God claim God’s authority and protection through the living and only begotten Son of God Jesus to whom all authority is given, and claim the wisdom and protection of Jesus in these evil and painful and sometimes confusing times.
- 4** The truth is that most people live in fear of what can happen to upset the “normal” life they live. Until each person learns to fully trust God and God’s true holiness and glory and majesty and authority, a person can never truly live in peace with a calm heart before and walking beside Jesus each step of the way.

My prayer for all of you is that you walk with Jesus daily in his forgiveness and glory and majesty authority and protection and everlasting mercy and love each day
Science Guy
