Subject: What the true energy crisis is and why it matters to you !!

To begin, we hear all the whining and wailing about the sudden cost of energy going up around the world and in the USA. We also hear that we in the USA and the people in Europe must suffer to “punish” Russia for entering the Ukraine. The purpose of this report is not to get on one side or the other of the Russia/Ukraine actions, but rather the **ACTUAL NEGATIVE EFFECTS THE BADLY CONSIDERED SANCTIONS WHICH CLAIM TO “HURT RUSSIA” FINANCIALLY ARE IN FACT HURTING THE EXACT COUNTRIES WHO PUT THE SANCTIONS INTO EFFECT.**

A NOTE: If you wish to wage economic war (which is precisely what a sanction is, you must consider any negative effects your sanctions may have on your own country before you do it !!!)

This report also points out the foolhardy actions which Joe Biden chose to make regarding energy and how it affects you !!! First let us examine some basic facts in the situation and how did we get into the mess.

1 First How do the changed energy policies affect each person personally ???

1.1 Prior to Joe Biden becoming president the USA was an energy EXPORTER earning money and creating JOBS IN THE USA!!!

1.2 Prior to Joe Biden becoming president, 35 cents of every food dollar you spent went to the energy to get it from source to your mouth. If you doubt it consider the following:

- 1.2.1 The farmer must pay the shipping cost of seeds and fertilizer etc to his farm.**
- 1.2.2 The farmer must buy diesel for his tractor and other farm machines.**
- 1.2.3 The farmer must buy LPG for his grain dryers.**
- 1.2.4 The food buyers must pay for the diesel to move the food processors.**
- 1.2.5 The food processors consume energy to process the food.**
- 1.2.6 The workers at the food processors use energy to get back and forth to work.**
- 1.2.7 The trucks hauling the results of the food processing to the warehouses use diesel.**
- 1.2.8 The trucks delivering from the warehouses to the store use diesel.**
- 1.2.9 When you go to the store to buy the food you use gasoline.**
- 1.2.10 When you cook the food you use energy.**
- 1.2.11 Then you eat the food**
- 1.2.12 If you use a dishwasher to wash the dishes then you use energy.**

1.3 Since Joe Biden took office, The USA radically changed and became an energy importer after several key energy projects were canceled by Joe Biden. This caused the energy cost per dollar spent on food to go to 50 cents per dollar causing a jump in inflation.

1.4 Since the Joe Biden sanctions against Russia took effect the energy cost in every food dollar has gone to 90 cents. TO SAY IT DIRECTLY AND BLUNTLY THE SANCTIONS HAVE COST YOU THIS:

1.4.1 IMMEDIATE JUMP OF 35% TO 60% INCREASE IN COST DEPENDING ON THE FOOD ITEM.

1.4.2 WHEAT AND SOYBEANS AND CORN WILL BE DOWN THIS YEAR AND IF AVAILABLE THE PRICES WILL BE UP TO 6 TIMES HIGHER BECAUSE THE GLOBAL SUPPLY OF GRAINS IS WAY DOWN NOW.

1.5 GASOLINE IS EXPECTED TO HIT 15 DOLLARS PER GALLON UNLESS THERE ARE RADICAL CHANGES MADE IN THE ENERGY POLICIES OF THE USA FROM WHAT THEY ARE NOW.

1.6 ALSO, REFINERIES ARE DESIGNED TO TAKE IN SPECIFIC TYPE OF OIL FROM A SPECIFIC FIELD OF OIL WELLS, AND YOU CAN NOT JUST SHIP OIL FROM ANOTHER PLACE TO LOAD INTO THE REFINERY WITHOUT CHANGING THE REFINERY SETUP WHICH CAN TAKE MONTHS OR YEARS TO ACCOMPLISH !!!

1.7 THIS IS PRECISELY WHAT HAPPENS WHEN A POLITICAL PERSON WHO HAS NO WORKING KNOWLEDGE OF INDUSTRY IS ALLOWED TO DECIDE THINGS AND MAKE PROMISES WHICH ARE UTTERLY IMPOSSIBLE TO FULFILL AS PROMISED.

2 TO CHANGE FROM A HYDROCARBON BASED ECONOMY AND DEPENDENCY TO A FULLY RENEWABLE ENERGY BASED ECONOMY IS A DECADES LONG EFFORT WHICH CAN NOT BE EASILY FORCED BECAUSE THERE ARE DEEP TECHNICAL CHALLENGES TO MEET. HERE ARE SOME EXAMPLES:

2.1 WHEN YOU BUY AN ELECTRIC CAR YOU ARE ALSO BUYING INTO (ACCEPTING THE FACT) THAT YOUR NEW ELECTRIC CAR HAS FORCED DOWN TIME TO CHARGE THE BATTERIES AND YOU CAN NOT DRIVE THE CAR WHILE THE BATTERIES ARE BEING CHARGED WHICH IS SEVERAL HOURS.

2.1.1 ALSO IF THE POWER GRID IS DOWN YOU ARE STUCK.

2.2 A CAR OR TRUCK WHICH RUNS ON GASOLINE OR DIESEL CAN BE FILLED UP AND BACK ON THE ROAD IN MINUTES.

2.3 A CAR OR TRUCK POWERED BY A HYDROGEN FUEL CELL CAN BE LOADED UP AND ON THE WAY AGAIN IN MINUTES LIKE THE GASOLINE OR DIESEL VEHICLES.

3 ADDITIONALLY THERE ARE A FEW OTHER KEY ISSUES WITH FULLY ELECTRIC CARS COMPARED TO CARS WHICH RUN ON FULLY RENEWABLE ENERGY SOURCES.

3.1 WHO EVER CONTROLS THE POWER GRID CONTROLS YOUR TRAVEL IN AN ELECTRIC CAR.

3.2 SINCE EACH ELECTRIC CAR TELLS THE CHARGING STATION IT'S SERIAL NUMBER, IF THERE IS CENTRAL CONTROL OVER THE CHARGING STATIONS YOUR EXACT CAR CAN BE DENIED A CHARGE.

3.3 THE RARE EARTH METALS IN THE BATTERIES OF THE ELECTRIC CARS HAVE A HIGH COST AND THEN SENDING THE OLD BATTERIES BACK TO RECOVER THE METAL THEN REFINED THE METALS AGAIN ARE NOT DISCUSSED AT ALL THAT INFORMATION IS GLOSSED OVER BY THE ELECTRIC CAR COMPANIES.

3.4 THE SECOND ISSUE WHICH IS EVEN MORE REAL IS THE SANCTIONS WHICH COVER THE RARE EARTH METALS AND AFFECT THE COSTS OF THE CARS GREATLY

3.5 ALSO REMEMBER AN ALL ELECTRIC CAR HAS A CONTROL SYSTEM MADE OF SEMICONDUCTORS WHICH ARE IN FACT IN SHORT SUPPLY WORLD WIDE AND THAT CAN AFFECT PRICE AND DELIVERY OF A NEW CAR AS WELL AS REPAIRS.

4 WHY DO GLOBALISTS WANT TO FORCE INSTANT CHANGE?

4.1 IS IT BECAUSE OF CLEAN AIR ?

4.2 IS IT BECAUSE OF THE WARMING OF THE EARTH ?

4.3 IS IT BECAUSE EVERY COUNTRY CAN HAVE INDEPENDENT ENERGY SUPPLIES ?

4.4 ABSOLUTELY NOT !!! IT IS BECAUSE THE GLOBAL GOVERNMENT WHICH IS COMING DEMANDS ABSOLUTE CONTROL OVER EACH PERSON ON THE PLANET !!!

EPILOGUE

Again I present the warning that Jesus is the only answer and protection in the evil times we are in and in the even more evil times we are headed into. Trust Jesus 100 % above all other things or people in your life ! And learn to claim the authority of God through the precious blood of Jesus.
