Subject: High level traitors and damage done to the USA military and the United States of America

This is a painful report because it is about highly advanced USA technology or information which was just given away in secret to countries claimed to be enemies in public in the hope of gain (cash or political leverage of some type). We begin with a list of key items which when explained, show the depth and extremes people went to in working to increase their power and influence. These evil people traded their own souls and the souls and bodies of others as sacrifices to lucifer in their efforts to please lucifer to gain absolute control over others feeding their need to be worshiped as God. We present first a list of sacrifices and offerings and gifts to others as directed by lucifer himself to achieve a goal.

- 1 Nuclear Military weapons given as gift: working sample of one or more copies of the weapon and complete design documentation N(NOTE: **THE DESCRIPTIONS ARE GIVEN SO YOU UNDERSTAND WHAT HORROR OF WEAPONS WERE GIVEN AWAY THUS DESTROYING THE ADVANTAGE THE USA HAD AS THE DEVELOPER.**

- 1.1 Basic atomic bomb system:

- 1.1.1 Uranium 235 key Bomb design from the Manhattan Project produced two different types of atomic bombs, code-named Fat Man and Little Boy.: The Little Boy type of bomb, which was dropped on Hiroshima, had a much simpler design than the Fat Man model that had been tested at Trinity. Little Boy triggered a nuclear explosion, rather than implosion, by firing one piece of uranium 235 into another. When enough U235 is brought together, the resulting fission chain reaction can produce a nuclear explosion. But the critical mass must be assembled very rapidly; otherwise, the heat released at the start of the reaction will blow the fuel apart before most of it is consumed. To prevent this inefficient pre-detonation, the uranium bomb uses a gun to fire one piece of U235 down the barrel into another. The bomb's gun-barrel shape was believed to be unquestionably reliable and had never been tested. In fact, testing was out of the question since producing Little Boy had used all of the purified U235 produced to the date of the dropping of the bomb on Hiroshima; therefore, no other bomb like it was built during world war 2.

- 1.1.2 Fat Man, which was dropped on Nagasaki, was the more complex of the two initial atomic bomb designs. A bulbous, 10-ft. bomb containing a sphere of the metal plutonium 239, it was surrounded by blocks of high explosives that were designed to produce a highly accurate and symmetrical implosion. This would compress the plutonium sphere to a critical density and set off a nuclear chain-reaction.

- 1.2 Basic fusion bomb: In a thermonuclear weapon, often called a hydrogen bomb, the fission process is only the beginning. Modern nuclear weapons, such as the United States' B83 bombs, use a similar fission process to what is used in atomic bombs. But that initial energy then ignites a fusion reaction in a secondary core of the hydrogen isotopes deuterium and tritium. The nuclei of the hydrogen atoms fuse together to form helium, and again a chain reaction results in an explosion—this time a much more powerful one.

- 1.3 Three stage fusion bomb: A three-stage hydrogen bomb uses a fission-type atomic bomb as the first stage to compress the thermonuclear second stage. The energy produced from the

second stage explosion is then directed to compress the much larger thermonuclear third stage.

1.4 Four stage briefcase fusion bomb: This was designed to fit a hydrogen bomb into a briefcase for hand delivery to the target.

1.5 Neutron bomb: A neutron bomb, officially defined as a type of enhanced radiation weapon (ERW), is a low-yield thermonuclear weapon designed to maximize lethal neutron radiation in the immediate vicinity of the blast while minimizing the physical power of the blast itself. The neutron release generated by a nuclear fusion reaction is intentionally allowed to escape the weapon, rather than being absorbed by its other components. The neutron burst, which is used as the primary destructive action of the warhead, is able to penetrate enemy armor more effectively than a conventional warhead, thus making it more lethal as a tactical weapon.

1.6 Cobalt bomb: A cobalt bomb is a hydrogen bomb wrapped in cobalt metal which would contaminate the area for thousands of years.

2 Rockets and mobile

2.1 Senior Ukrainian officials, including President Volodymyr Zelensky, have pleaded in recent weeks for the US and its allies to provide the Multiple Launch Rocket System, or MLRS. The US-made weapon systems can fire a barrage of rockets hundreds of kilometers — much farther than any of the systems Ukraine already has — which the Ukrainians argue could be a game changer in their war against Russia.

2.2 Another system Ukraine has asked for is the High Mobility Artillery Rocket System, known as HIMARS, a lighter wheeled system capable of firing many of the same types of ammunition as MLRS.

2.3 PLEASE NOTE THAT JOE BIDEN IN FRONT OF YOUR EYES IS SENDING THE MOST ADVANCED ARMY SUPPORT SYSTEMS TO THE UKRAINE WHOSE PRESIDENT ADMITS HE IS HIGH ON COCAINE EVERY DAY, WHICH LEADS US TO ASK THE CHALLENGE QUESTION OF HOW CAN YOU TRUST SUCH A PERSON TO NOT ATTACK INSIDE THE BORDERS OF RUSSIA THAT IS ILLOGICAL THINKING AND WE THE PEOPLE WILL PAY WITH OUR LIVES FOR THIS DANGEROUS THINKING.

3 High tech spying or data collection systems.

3.1 Universal time slot Inter-changer and real time data scanning system. This system allows full access to all data on fiber optic transmission systems and can also interface with copper wire data transmission systems which exist around the world. Every intelligence agency world wide fought to steal systems and the design.

3.2 High performance camera for ultra high altitude photography.

4 Jets and jet related things.

4.1 Most of the high performance Pratt and Whitney jet engine plans have been given to enemies by political people who do not understand that building jet engines is much more than just a sample engine and a set of engineering plans and documents, the skills of the workers are deeply tied to the success of building the engines.

4.2 The B2 bomber plans were given away as well but just like jet engines building complex planes is highly dependent on trained skilled workers with years of experience.

I can hear you now asking just who are these traitors who trade away our rights as tax payers for their personal gain????

MOST OF YOU WILL BE SHOCKED TO KNOW THAT THESE ARE ELECTED OFFICIALS!!!!

1989-1993	George Bush	Barbara Bush	Dan Quayle
1993-2001	Bill Clinton	Hillary Rodham Clinton	Albert Gore
2001-2009	George W. Bush	Laura Bush	Richard Cheney
2009-2017	Barack Obama	Michelle Obama	Joseph R. Biden
2017-2021	Donald J. Trump	Melania Trump	Mike Pence
2021-	Joseph R. Biden	Jill Biden	Kamala Harris

The list of traitorous acts by the people above is so long that it would fill hundreds of pages, so just some notable examples will be listed.

George Bush Sr. Gave away the neutron bomb in front of the inventor.

George Bush Sr. Gave away the Universal time slot Inter-changer and real time data scanning system in front of the inventor.

Bill Clinton Traded away the following:

- A> He gave away the second set of B2 Bomber plans**
- B> He gave away the loral positioning system (which was before GPS) so that China had precise targeting information for their ICBM systems.**
- C> He gave the Chinese the listing of the patent applications held due to being national security sensitive.**

George W. Bush gave away almost everything that was not nailed down in the high tech area

Barack Obama traded away the following things:

- A> your rights as an American Citizen and turned you into a slave of the UN.**
- B> He created a list of 125 million Americans in 72 categories to be slated for execution.**

Donald J. Trump traded away your rights to medical choices for yourself and your children. He also tore up many long standing existing treaties because he wanted to renegotiate them to his personal benefit without thinking of the country as a whole.

General Milley illegally informed China of Trumps plan to first strike China before the end of his term.

Joseph R. Biden wants to make sure that you can not eat and you have no fuel or money for fuel and food all while he is giving away all the inventory of our military to help the Ukraine who is not even an ally and is run by a cocaine addict (zelensky admitted it on live tv).
